"El material de lo construido" integrates a traveling exhibition as well as a collection of books of the same name that presents architectural studies outstanding for "good construction", a key condition for achieving "architectural sustainability", essential for project thinking focused on constructive and material development.

On Thursday, June 1, 2023, at 7 p.m., in the assembly hall of the COAC Tarragona, the opening of the exhibition will take place with the "Sediments" conference by NUA Arquitectures. Volume 04 of the collection will also be presented.
